

## **Hour 1**

### **Multicultural Arts & Crafts**

(Grades K-2)

Come join us & travel around the world in this multi-cultural arts & crafts class. The students will experience and explore different cultures through arts & crafts.

### **Kid Contraptions!**

(Grades K-2)

Kid Contraptions! is a course designed for those creative, questioning and imaginative kids who want to learn about science, contraptions and how everything works! This class will use your child's natural curiosity to develop essential, creative problem-solving skills.

### **Fun with Math!**

(Grades 1-3)

This class is all about learning to love math! Students will enjoy brain teasers, skill sharpeners & fun math games to enhance their mathematical abilities! Math Games = Fun + Learning!

### **States & Capitols**

(Grades 3-5)

Ever wondered what the capitol of Illinois is? What's California's state flower? Where in the world is Nevada? These questions and more will be answered in this exciting U.S. Geography/History class! Students will practice their memorization skills, map abilities, and have lots of fun on this cross-country road trip!

### **Spanish I**

(Grades 4-8)

Come on vamonos! Let's have some fun learning a foreign language! Students will not only get an introduction to the Spanish language, but they will learn about the varying cultures & countries that speak Spanish as well! Students will be engaged in a variety of hands on activities, cultural projects, music, food, & fun!

### **Art**

(Grades 5-12)

Are you an aspiring artist? Do you love to be creative! Then come join this class as we get an introduction into various art genres. Dabble in watercolor, pencil, charcoal, etc.

### **May I or Can I? Etiquette for Young People.**

(Grades 5-8)

Bring the artistry of the past alive and into the present. Learn all about etiquette and how to use it in today's world. From letter writing (not email) to table settings, come join us & have some fun!

### **Slavery In America**

(Grades 7-12)

Join us as we delve into the history of slavery in America. We will start our journey in Africa where it began, crossing over to America where it took root and study the daily lives of slaves through a variety of books, slave narratives, videos, and music. We will take a look at the Underground Railroad and the heroes involved in this movement. We will incorporate writing skills, food and crafts in our study.

### **Assistant Intern Program**

(Grades 9-12)

Always wanted to see if you had it in you to be a teacher? Interested teens can be an Assistant Intern in one of the classes offered through SMILE. This would be a one semester commitment. 12 hours volunteer credit.

## **Hour 2**

### **The Human Body**

(Grades K-2)

Can you name the smallest bone in the human body? What role do your teeth play in digestion? Find out the answers to these questions and many more as we learn about the amazing human body. This class will study each of the body systems. Classes will include a variety of read-alouds, activities, experiments, and crafts.

### **Draw Write Now**

(Grades K-2)

Does your child doodle and draw everywhere? Want to channel their creativity? Join this class and let their creativity explode! Students will use the Draw Write Now! Series to explore basic drawing.

### **Fun with Math!**

(Grades 4-6)

This class is all about learning to love math! Students will enjoy brain teasers, skill sharpeners & fun math games to enhance their mathematical abilities! Math Games = Fun + Learning!

### **Exploring Little House in the Big Woods**

(Grades 3-5)

Join us as we travel back in time to settle in the Big Woods with Laura and her family. We'll explore topics ranging from hunting and carving to churning butter and making pioneer crafts. We'll work on writing and illustrating our own autobiographies as well.

### **Space Camp**

(Grades 2-4)

Space always captivates the imagination: the beauty, the enormity, the unknown. In this introduction to astronomy, students will discover God's wondrous wisdom in His design of the solar system as we learn about the planets, stars, and astronauts.

### **What you need to know when you Grow Up! Everyday Living Skills for Young Adults**

(Grades 7-12)

Learn about all the important details about growing up and living on your own! Through a Christian perspective, students will learn all about opening bank accounts, credit cards, atm cards, buying their first automobile, renting an apartment, buying a home, mortgages, balancing a checkbook, budgeting, etc.

### **Inventions!**

(Grades 4-7)

This class will focus on some of the great inventors of our time as well as the science of invention! Be prepared to invent something of your own in this creative class!

### **Book Club "A Year Down Yonder"**

(Grades 5-8)

Calling all bookworms!! This book study will delve into "A Year Down Yonder" by Richard Peck. Students will have the chance to discuss the book, the story, the history & the people surrounding the time period of the Great Depression. Students will have ample opportunity for discussion as well as hands on projects & activities. The students will be required to read a chapter or more prior to class each week.

### **Assistant Intern Program**

(Grades 9-12)

Always wanted to see if you had it in you to be a teacher? Interested teens can be an Assistant Intern in one of the classes offered through SMILE. This would be a one semester commitment. 12 hours volunteer credit.
